III. Principles

1. Objective of rules of ethics procedure of FGSZ Ltd.

The primary objective of this regulation is to define the roles and responsibilities of organisational units and persons involved in processes designed to ensure ethical conduct/behaviours prescribed in the FGSZ Ltd.'s Code of Ethics. Furthermore, it defines the rules applicable to investigating ethics concern reports and issues raising the suspicion of non-compliance, and procedures carried out by Ethics Committee and Ethics Officer in accordance with Act CLXV of 2013 (of Hungary) on Complaints and Public Interest Disclosures chapter on whistleblowing systems maintained by employers.

2. The competence of the Ethics Committee

The Ethics Committee is the decision maker in questions addressed to the Ethics Committee related to the compliance with the behavioural rules and basic principles set out in the Code of Ethics, and based on the outcome of the investigation of the notifications. It also evaluates reports and propositions made by the Ethics Officer. It is not the competence of the Ethics Committee to conduct procedures related to enforcing legally secured rights, thus the Ethics Committee especially does not decide in questions of law or financial claims. The Ethics Committee is not bounded in its decisions by any decision previously made by any FGSZ Ltd. board or organisation, but it is not entitled to intervene in proceedings pending before any authority or court. Until official or judicial proceedings in the same or connected issues have not been completed, the Ethics Committee shall not carry out an ethics procedure in a question, where an administrative or court proceeding is in progress in the same or related question until such proceeding is terminated. Any ongoing ethics procedure shall be suspended until the final closure of such administrative or court proceedings.

3. Principle of procedural fairness

All participants involved in ethics procedures shall act in compliance with the principles of objectivity and impartiality, and according to the provisions of FGSZ Ltd.'s Code of Ethics.

4. The Parties' behaviour

During the course of ethics procedures, the participants shall apply in their communication a tone reasonably expected in any formal business relationship and act according to the principles of good faith, fair dealing, and cooperation. The Reporting Person shall be informed about the consequences of malicious notifications, the rules applied during the investigation procedure, furthermore that the identity of the Reporting Person – if the data for identification is provided by the Reporting Person – is handled confidentially in every stage of the procedure.

5. Deadlines

The Participants involved in ethics procedures shall make all reasonable endeavours to meet the deadlines set forth in this Regulation in a way as to ensure that the procedures of the Ethics Council serve as an effective support to the decision-making by the managers authorised to determine and act on measures, and to manage legal relationships established under other contract.

6. Confidentiality

Unless it is otherwise stipulated in this Regulation, all documents produced or made available in the course of ethics procedures are confidential, in order to protect the personal data of persons concerned by ethics procedures and to protect the reputation and business information of FGSZ Ltd. FGSZ Ltd. handles all documents related to ethics cases according to its Privacy Notice and is compliant with its Privacy Policy, the relevant provisions of Act CXII of 2011. law (Data law.) and the EU Regulation 2016/679 (GDPR). All participants involved in ethics cases (Ethics Committee members, Ethics Officer, other investigator, Reporting Person, Reported Person, witness, expert, etc.) shall handle all information regarding the content of the notification and the identity of persons involved in the notification as confidential, and shall not share such information – with any other departments or employees of the employer, except for the person concerned in the notification.

The obligation of confidentiality does not restrict the right to legal defence and fair clarification secured for the person who is concerned by an investigation, however, they shall act lawfully, including respecting privacy, information self-determination, and business secrets at all times.

7. Processing of personal data

Based on Complaints and Notices of Public Interest Act CLXV. of 2013 section 14. § (1) FGSZ Ltd. as an employer – in order to report its lawful and prudent operation – establishes a whistleblowing system for reporting abuse and non-compliance, managed and operated by the Ethics Officer, for reporting breaches of law and certain rules of conduct. Within this frame FGSZ Ltd.'s employees, persons in a contractual relationship, or persons who have a legitimate interest in elimination or remediation of certain conduct, may make a report. Based on Complaints and Notices of Public Interest Act CLXV. of 2013 section 14. § (3) the Reporting Person personal data may be handed over only to the body competent to conduct the complaint or public interest procedure, in case this body is entitled to manage it by law or if the Reporting Person has explicitly given consent to transfer his or her data. The personal data of Reporting Person may not be disclosed without their expressed consent.

FGSZ Ltd. as data controller, shall – within the confines of the notification system – process and forward the personal data – including special categories of personal data and data relating to criminal convictions and offences - of the Reporting Person to other organisations of FGSZ Ltd. participating in the investigation of the notification. The same applies to the data of the person, whose behaviour or malpractice served as the basis of the notification, or those, who can possess substantive information regarding the notification [hereinafter: persons involved in the notification]. Any personal data is processed and forwarded only if it is essential to the evaluation of the case for the sole purpose of the evaluation of the notification and to remedy or stop the behaviour subject to the notification.

The legal basis of the data processing is that it is necessary for the fulfilment of legal obligation, the prevention and investigation of misconducts that endanger the assets, trade secrets, intellectual property and business reputation of the data controller, or the proper, respect based, fear and retaliation free working environment and the impeachment of the responsible persons (based on GDPR Article 6 (1) c) and Article 9. paragraph (2) point b) and g)).

All personal data processed within the notification system that are not necessary for the evaluation of the notification or for the remedy or stopping of the behaviour subject to the notification must be erased immediately.

The personal data of the Reporting Person may be shared only with such authorities that are entitled to conduct procedure initiated based on the notification, if such bodies are entitled by law to process the personal data, or if the Reporting Person explicitly consented to the transfer of their data.

The Reporting Person or the interviewed person may request in particularly justified cases that their personal data may be shared only with the Chairperson of the Ethics Council and with the Group Ethics Officer during the investigation of the notification.

If it became obvious that the reporting Person maliciously provided invalid information of critical importance and

- a) with this an indication of a criminal act or minor offence has arisen, their personal data shall be forwarded to the body or person entitled to conduct the legal proceeding,
- b) it can be predicted that the Reporting person had unlawfully caused damages or other infringements, the personal data related to the notification must be transferred to the bodies or persons with the authority to initiate legal proceedings based on their request.

If based on results of the investigation, the notification is not founded, or further actions are not necessary, all personal data in relation to the notification shall be deleted within 60 days after the closure of the procedure.

If based on the investigation action is taken – including actions in relation with initiating any legal or disciplinary procedures against the Reporting Person – the data in relation with the notification can only be stored in the notification system until the legally-binding closure of the procedures had started based on the notification.
